

Professional Experience

Stargaze - *Web3 NFT marketplace on Cosmos*

May 2022 – August 2025

Senior Full Stack Engineer (Contractor)

- Joined 6 months post-launch; grew into frontend lead as platform processed \$45M in trading volume
- Shipped complete marketplace feature set of bidding, auctions, launchpad and cross-chain support as part of a core team of 6 engineers
- Contributed across the stack using React, Node.js, GraphQL and Go
- Led development of a new marketplace (intergaze.xyz) on a separate blockchain, serving as technical lead from architecture to launch
- Migrated from Next.js, GraphQL and Vercel to React Router, Go REST and Cloudflare, achieving 6x faster API responses, 20x faster rebuilds and significantly lower hosting costs
- Mentored junior engineers, led frontend reviews, and standardised React patterns across the codebase

Public products: stargaze.zone, intergaze.xyz, stargaze-apis.com/graphql

Shopify - *Global ecommerce platform (NYSE: SHOP)*

Feb 2021 – May 2022

Frontend Engineer (Contractor)

- Delivered flagship marketing experiences for Shopify's New York and Los Angeles launches
- Built the Shopify x Detroit Pistons collaboration site, integrating custom visuals and interactive content
- Collaborated with Shopify's brand and marketing teams to deliver high-visibility React builds aligned with creative direction

Public products: ny.shopify.com, la.shopify.com

Studio Clinic - *Shopify Plus partner agency*

March 2018 – May 2022

Lead Developer

- Founded and led a Shopify Plus-certified ecommerce agency, recognised as top 1% of vetted agencies
- Led the V2 launch of drinkcann.com, supporting growth to \$50M+ in sales
- Delivered 10+ storefronts across fashion, beauty, and CPG sectors with a focus on performance and conversion
- Partnered with Shopify's in-house marketing team on projects, which led to a direct contract engagement

Public products: drinkcann.com

Technical Skills

Frontend: React, Next.js, React Router, TypeScript, Tailwind

Backend: Go, Node.js, GraphQL, REST APIs, SQL

Infra/DevOps: Cloudflare, Vercel, CI/CD
